<http://www.ittoolkit.com/fast-track-project-toolkit.html>

The Project Governance Reference Guide shows you how to plan and execute the project governance phase of the fast track process, including workflow and resource management.

### What is the Fast Track Process?

#### It's not a short-cut - It's a solution!

The *fast track* concept is simple, straightforward, and ready-for-use. When resources are limited, and time is in short supply, you have to make the most of every available tactic, tool and strategy.

**The Fast Track Project Toolkit** shows you how to set priorities, minimize redundancies, leverage available resources, and apply standardized tools and practices to suit individual projects. Every step, tool and template is connected in a streamlined process designed to produce required results in the shortest time possible!

The *Toolkit* gives you everything you need to execute our time-saving *fast track management model* - from project proposals to post project reviews.
